All items in the half barrel must be put in the ASH aluminum cans at the end of the weekend.

These will be located in the same area as the pick up area where at the end of the weekend you will be returning the stand, fire buckets and half barrel and any unburned wood.

Are siblings / friends allowed to attend?

No. Our suggestion is to bring them to Family Camp, Water Carnival and/or Cubtoberfest.

This is the single BEARS & WEBELOS ONLY activity of the year. Your Pack's older boys are moving from Cub Scouts to Boy Scouts and have earned the privilege of having their own special event! So let's keep it special and limited only to Bears and First and Second Year Webelos Dens, Webelos Leaders, and Parents/Adult Guardians. ** No younger Cub Scouts or siblings please.**

Can the scout camp with an another adult?

We follow the guidelines in the Guide to Safe Scouting. No adult is to be alone with another scout. We follow the 2 deep leadership in BSA.

All guidelines of the Guide to Safe Scouting and BSA Youth Protection Policies must be followed at all times. No youth may sleep in a tent with an adult who is not their own Parent/Guardian. Two deep leadership and no one on one contact policies must be followed at all times.

What if there is an Emergency?

If you get lost or have an emergency, find any Staff member. All stations will have the phone numbers of the Medic and Event Chair.

Is there water available at Camp?

There are drinking water spickets on the front Lawrence lodge and near Webelos Lodge, Lass Lodge, and Scout Lodge. Dens / Packs need to bring containers to carry the water to and store water in their campsites. Washing is not permitted at the water spickets. Everyone attending should bring their own personal full water bottle. Water jugs will be available at Activity Stations to refill water bottles.

Tips on Sleeping in the Cooler Weather: (Even in May there are cool nights)

Wear clean wool socks to bed. DO NOT wear the socks that you wore all day, you sweated in them and it will make your feet colder during the night. Same with your underwear and clothes. Wear a wool hat or hoodie to bed, all your heat is escaping through your head as you sleep. Cotton kills - wear fleece, polyester, etc. to bed. Bring an extra blanket or 2 to put over your sleeping bag. Make sure you have a blanket, etc. under your sleeping bag to keep the cold from the ground out.
