

Scavenger Hunt

Directions:

The first family to do the following items and post pics and videos of themselves documenting their completion, will win a prize for their family! Once you're done, upload all your pics and videos to your Facebook page with a designated hashtag and #ScoutingIsAlive, that way we can all find each other's pics. Text your leader or tag them, so your unit know when you're done!

Rules:

- 1) All but 2 items must be documented with a pic or video and uploaded to count. You have 2 passes; if you don't have the materials to do a certain item, you can pass, but only twice! (The reading item is required – you cannot pass on the "read a book" item).
- 2) You must complete the scavenger hunt together. You cannot split up the list and do more than one item at a time.
- 3) The first family to upload all their pics/videos wins. If you started later but took less time, this team will not win if someone uploaded sooner. However, even if a team wins, keep going! All scouts that complete this challenge will be recognized at the next Pack Meeting.

Ready, Set, GO!
